Common industry import, as shown above, characterized by:

- Crumbly Rubber Tread that easily debonds
- Cast Iron Core (inherently brittle, will rust and decay)
- COLD-FORGED, sloppy raceways
- Legs "double-welded" with filler to hide bad fit

Durastar's HybridKP and DuraMORe super combo characterized by:

- Quality Rubber, IMPOSSIBLE TO DEBOND
- ZERO RUST core, Mega Impact Resistance
- DROP-FORGED raceway, robotically welded
- Kingpinless performance, Kingpin Price

Hybrid KP & DuraMORe

Patented Heavy Duty Yoke Moldon Rubber | GlassNylon

LONGEST LASTING DUMPSTER CASTER ON EARTH
