

GET THE NEW HARD CORE TECHNOLOGY

Steel core
is old technology

GLASS-FILLED NYLON (HardCore)
chemically engineered to specifically replace
steel core wheels (aka cast-iron).
NO COMPARISON IN PERFORMANCE!
Lab tested, Field tested, Customer approved.

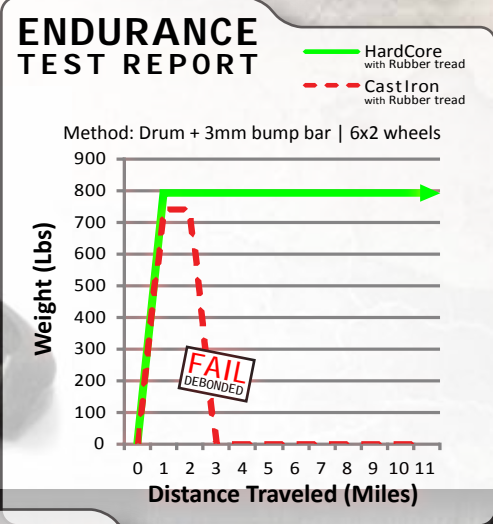

Rubber on Glass-filled Nylon | RN

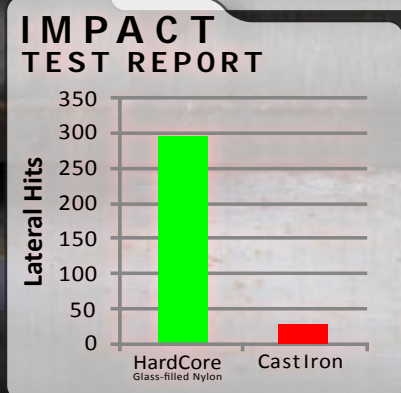

Wheel Dia.	Tread Width	Hub Length	Load Cap.	Part #	Unit Wt. (Lbs)
4	2	2-3/16	400	420RN23B	1.00
5	2	2-3/16	450	520RN23B	1.45
6	2	2-3/16	500	620RN23B	1.90
8	2	2-3/16	600	820RN23B	2.80

* All RN wheels Include installed Roller Bearing & Steel Spanner

SAME CAPACITY
greater **Molecular bond**
IMPACT prevents debonding
absorption
RESISTS WATER, OILS, ALKALINES, AND CHEMICALS
NO RUST
or core decay
more **Economic**
weighs less
