

-SIRIS- HIGH GRADE DUAL WHEEL

Durastar Manufacturing

DUAL WHEEL

High Grade Elastic Polyurethane on Aluminum

Hardness: 87(±5) Durometer Shore (A) Temperature: 180 °F to -40°F

The unique polyurethane wheel tread can **reduce the force needed for movement** and **reduce vibrations during rolling**, which provides a smooth, quiet and highly maneuverable performance. The wheel tread also **deflect debris to help keep the wheel clean** and **decrease maintenance costs**. Two independent wheels allow **sharp turns with the smallest turn radius**. Perfect choice for narrow aisles, confined spaces and hallways.

Part#	Wheel Dia.	Thread Width	Hub Length	Load Cap	Bore ID
420TUA63M-DW	4	2	2-7/16	1000 lbs.	1/2
520TUA63M-DW	5	2	2-7/16	1200 lbs.	1/2
620TUA63M-DW	6	2	2-7/16	1500 lbs.	1/2
820TUA63M-DW	8	2	2-7/16	2000 lbs.	1/2
