Collapsed With Casters

### JR5EV

## WIRE CONTAINER

This junior container offer a clean method of storage that allows for quick visual inventory inspection. It is ideal for work cells with limited available footprint. It has a gate locking mechanism to avoid unintended opening of the container and the channel base understructure is added for the needed strength. They can be stacked three high when fully loaded to save warehouse space and reduce shipping costs. The junior container's smaller mesh pattern is ideal for holding small items securely and the side mesh and bottom mesh is 1/2" x 1/2". Sold with caster pads and has 1/2 drop-full drop down gate.
